*b/c of this 1216,
we deleted some language
from our authority
procurement
provisions*

I have not found anyone objecting here, so if you could make the change that way it would be appreciated.

Thanks,

Scott

We do want them included. Could you add them to the definition of an agency under 16.70 (1e)?

Thanks,

Scott

I thought that was what Bob decided. If they are not mentioned, they are not included. They are not an agency.

Hi Cathlene -

2/23/2011

As indicated in my voice message we are not comfortable with the addition of "or the University of Wisconsin-Madison" to the language regarding procurement. They are to be treated as any other agency and by calling them out the concern is that they will assume they do not need delegation from the State Bureau of Procurement.

Thanks,

Scott
